

PRELIMINARY DEATH SENTENCES

25 JANUARY 2011 - 23 SEPTEMBER 2018

The Index Identified 3,257 individuals who were referred for preliminary death sentences between 25 January 2011 and 23 September 2018. The majority of preliminary sentences (2,443) occurred in trials during the Sisi period (3 July 2013 - 23 September 2018).

The Index identified 662 preliminary death sentences for which dates could not be confirmed. It is likely that some of these sentences occurred during trials in the Mubarak period (14 October 1981 - 24 January 2011), as there is less information available about cases dating to that time period. However, because it is possible that some of these sentences were handed down after 25 January 2011, they are included in the Index and marked “date unknown.”
